

Meet the NYSSSWA Board: James Garner

Rochester Regional Representative

I am a School Social Worker in the Greece Central School District. My current role has me supporting from District Office. I am the liaison for several of our community partnerships and I support our mental health teams, including leading our social work department. I have 18 years experience in schools, where my primary focus has been supporting classified students in self contained classrooms. I am excited to be a part of this great organization that works to connect social workers, provide learning opportunities, and

advocates on behalf of our discipline.
